Year-Round Indoor Tennis

Located at the South end of Grosse Ile, the center is a full-service facility staffed by experienced, service minded professionals.

- Six indoor direct lighted hard courts
- USPTA and USPTR certified instructors
- Adult and junior leagues & events
- USTA men's, women's, and junior leagues (Spring 2004)

Experienced Professionals

If you're a serious USTA player or just out to have fun, our USPTA and USPTR certified professionals have the skill and experience to help you or your son or daughter or grandchild succeed!

A Historical Facility

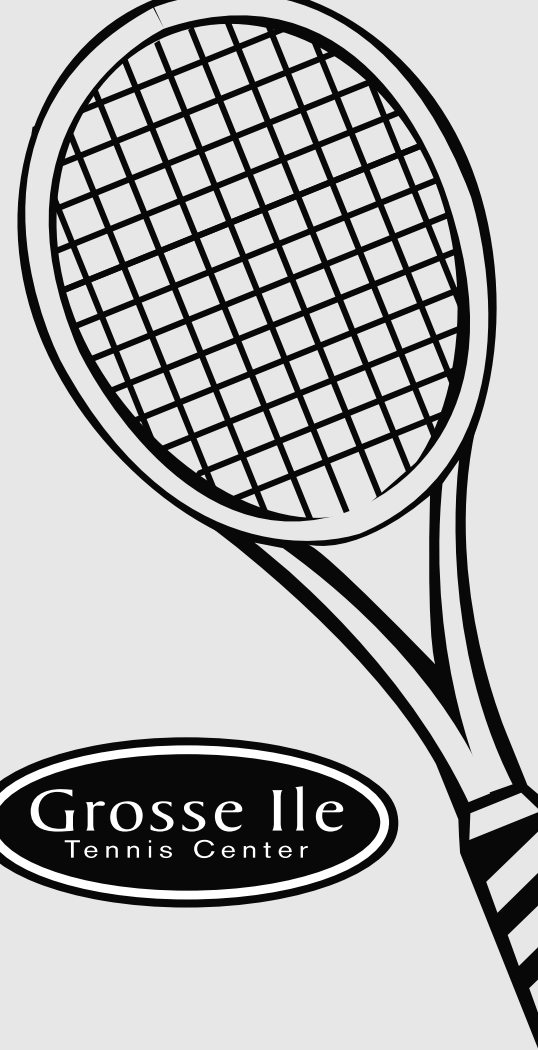

Enjoy playing tennis in this historical building which was built in 1942 to house military aircraft and later converted into a tennis facility in 1972. For over thirty years the facility has been exclusively used as a tennis and health club.

The facility is owned and presently operated by the Township of Grosse Ile and the Grosse Ile Municipal Airport.

The capital improvements initiated in Fall 2003 were funded through the efforts of private donors. With these funds Phase I of the redevelopment of The Tennis Center has transpired. Phase I focused upon reopening the tennis courts and limited amenities. Phase II will initiate the construction of new infrastructure, new locker rooms and the development of a full service fitness area.
